SEVERE : May cause respiratory effects even on healthy people and serious health effect on people with lung/heart diseases

VERY-POOR : May cause respiratory illness to the people on prolonged exposure. Effect may be more pronounced in people with lung and heart diseases

POOR : May cause breathing discomfort to people on prolonged exposure and discomfort to people with heart disease

MODERATELY POLLUTED : May cause breathing discomfort to the people with lung disease such as asthma and discomfort to people with heart disease Children and older

SATISFACTORY : May cause minor breathing discomfort to sensitive people

GOOD : Minimal impact

SEVERE : May cause respiratory effects even on healthy people and serious health effect on people with lung/heart diseases
VERY-POOR : May cause respiratory illness to the people on prolonged exposure. Effect may be more pronounced in people with lung and heart diseases
POOR : May cause breathing discomfort to people on prolonged exposure and discomfort to people with heart disease
MODERATELY POLLUTED : May cause breathing discomfort to the people with lung disease such as asthma and discomfort to people with heart disease Children and older
SATISFACTORY : May cause minor breathing discomfort to sensitive people
GOOD : Minimal impact

SEVERE : May cause respiratory effects even on healthy people and serious health effect on people with lung/heart diseases
VERY-POOR : May cause respiratory illness to the people on prolonged exposure. Effect may be more pronounced in people with lung and heart diseases
POOR : May cause breathing discomfort to people on prolonged exposure and discomfort to people with heart disease
MODERATELY POLLUTED : May cause breathing discomfort to the people with lung disease such as asthma and discomfort to people with heart disease Children and older
SATISFACTORY : May cause minor breathing discomfort to sensitive people
GOOD : Minimal impact

SEVERE : May cause respiratory effects even on healthy people and serious health effect on people with lung/heart diseases
VERY-POOR : May cause respiratory illness to the people on prolonged exposure. Effect may be more pronounced in people with lung and heart diseases
POOR : May cause breathing discomfort to people on prolonged exposure and discomfort to people with heart disease
MODERATELY POLLUTED : May cause breathing discomfort to the people with lung disease such as asthma and discomfort to people with heart disease Children and older
SATISFACTORY : May cause minor breathing discomfort to sensitive people
GOOD : Minimal impact

SEVERE : May cause respiratory effects even on healthy people and serious health effect on people with lung/heart diseases
VERY-POOR : May cause respiratory illness to the people on prolonged exposure. Effect may be more pronounced in people with lung and heart diseases
POOR : May cause breathing discomfort to people on prolonged exposure and discomfort to people with heart disease
MODERATELY POLLUTED : May cause breathing discomfort to the people with lung disease such as asthma and discomfort to people with heart disease Children and older
SATISFACTORY : May cause minor breathing discomfort to sensitive people
GOOD : Minimal impact

SEVERE : May cause respiratory effects even on healthy people and serious health effect on people with lung/heart diseases
VERY-POOR : May cause respiratory illness to the people on prolonged exposure. Effect may be more pronounced in people with lung and heart diseases
POOR : May cause breathing discomfort to people on prolonged exposure and discomfort to people with heart disease
MODERATELY POLLUTED : May cause breathing discomfort to the people with lung disease such as asthma and discomfort to people with heart disease Children and older
SATISFACTORY : May cause minor breathing discomfort to sensitive people
GOOD : Minimal impact

SEVERE : May cause respiratory effects even on healthy people and serious health effect on people with lung/heart diseases
VERY-POOR : May cause respiratory illness to the people on prolonged exposure. Effect may be more pronounced in people with lung and heart diseases
POOR : May cause breathing discomfort to people on prolonged exposure and discomfort to people with heart disease
MODERATELY POLLUTED : May cause breathing discomfort to the people with lung disease such as asthma and discomfort to people with heart disease Children and older
SATISFACTORY : May cause minor breathing discomfort to sensitive people
GOOD : Minimal impact

SEVERE : May cause respiratory effects even on healthy people and serious health effect on people with lung/heart diseases
VERY-POOR : May cause respiratory illness to the people on prolonged exposure. Effect may be more pronounced in people with lung and heart diseases
POOR : May cause breathing discomfort to people on prolonged exposure and discomfort to people with heart disease
MODERATELY POLLUTED : May cause breathing discomfort to the people with lung disease such as asthma and discomfort to people with heart disease Children and older
SATISFACTORY : May cause minor breathing discomfort to sensitive people
GOOD : Minimal impact

SEVERE : May cause respiratory effects even on healthy people and serious health effect on people with lung/heart diseases

VERY-POOR : May cause respiratory illness to the people on prolonged exposure. Effect may be more pronounced in people with lung and heart diseases

POOR : May cause breathing discomfort to people on prolonged exposure and discomfort to people with heart disease

MODERATELY POLLUTED : May cause breathing discomfort to the people with lung disease such as asthma and discomfort to people with heart disease Children and older

SATISFACTORY : May cause minor breathing discomfort to sensitive people

GOOD : Minimal impact

SEVERE : May cause respiratory effects even on healthy people and serious health effect on people with lung/heart diseases
VERY-POOR : May cause respiratory illness to the people on prolonged exposure. Effect may be more pronounced in people with lung and heart diseases
POOR : May cause breathing discomfort to people on prolonged exposure and discomfort to people with heart disease
MODERATELY POLLUTED : May cause breathing discomfort to the people with lung disease such as asthma and discomfort to people with heart disease Children and older
SATISFACTORY : May cause minor breathing discomfort to sensitive people
GOOD : Minimal impact

SEVERE : May cause respiratory effects even on healthy people and serious health effect on people with lung/heart diseases
VERY-POOR : May cause respiratory illness to the people on prolonged exposure. Effect may be more pronounced in people with lung and heart diseases
POOR : May cause breathing discomfort to people on prolonged exposure and discomfort to people with heart disease
MODERATELY POLLUTED : May cause breathing discomfort to the people with lung disease such as asthma and discomfort to people with heart disease Children and older
SATISFACTORY : May cause minor breathing discomfort to sensitive people
GOOD : Minimal impact

SEVERE : May cause respiratory effects even on healthy people and serious health effect on people with lung/heart diseases

VERY-POOR : May cause respiratory illness to the people on prolonged exposure. Effect may be more pronounced in people with lung and heart diseases

POOR : May cause breathing discomfort to people on prolonged exposure and discomfort to people with heart disease

MODERATELY POLLUTED : May cause breathing discomfort to the people with lung disease such as asthma and discomfort to people with heart disease Children and older

SATISFACTORY : May cause minor breathing discomfort to sensitive people

SEVERE : May cause respiratory effects even on healthy people and serious health effect on people with lung/heart diseases

VERY-POOR : May cause respiratory illness to the people on prolonged exposure. Effect may be more pronounced in people with lung and heart diseases

POOR : May cause breathing discomfort to people on prolonged exposure and discomfort to people with heart disease

MODERATELY POLLUTED : May cause breathing discomfort to the people with lung disease such as asthma and discomfort to people with heart disease Children and older

SATISFACTORY : May cause minor breathing discomfort to sensitive people

GOOD : Minimal impact

SEVERE : May cause respiratory effects even on healthy people and serious health effect on people with lung/heart diseases

VERY-POOR : May cause respiratory illness to the people on prolonged exposure. Effect may be more pronounced in people with lung and heart diseases

POOR : May cause breathing discomfort to people on prolonged exposure and discomfort to people with heart disease

MODERATELY POLLUTED : May cause breathing discomfort to the people with lung disease such as asthma and discomfort to people with heart disease Children and older

SATISFACTORY : May cause minor breathing discomfort to sensitive people

GOOD : Minimal impact

VERY POOR: May cause respiratory effects even on healthy people and serious health effect in people with lung/heart diseases

POOR: May cause respiratory illness to the people on prolonged exposure. Effect more pronounced in people with lung and heart diseases

MODERATELY POLLUTED: May cause breathing discomfort to the people with lung disease such as asthma and discomfort to people with heart disease Children and older

SATISFACTORY: May cause minor breathing discomfort to sensitive people

GOOD: Minimal impact

SEVERE : May cause respiratory effects even on healthy people and serious health effect on people with lung/heart diseases

VERY-POOR : May cause respiratory illness to the people on prolonged exposure. Effect may be more pronounced in people with lung and heart diseases

POOR : May cause breathing discomfort to people on prolonged exposure and discomfort to people with heart disease

MODERATELY POLLUTED : May cause breathing discomfort to the people with lung disease such as asthma and discomfort to people with heart disease Children and older

SATISFACTORY : May cause minor breathing discomfort to sensitive people

GOOD : Minimal impact

VERY POOR: May cause respiratory effects even on healthy people and serious health effect on people with lung/heart diseases

POOR: May cause respiratory illness to the people on prolonged exposure. Effect may be more pronounced in people with lung and heart disease.

MODERATELY POLLUTED: May cause breathing discomfort to people on prolonged exposure and discomfort to people with heart disease

SATISFACTORY: May cause minor breathing discomfort to sensitive people

GOOD: Minimal impact

SEVERE : May cause respiratory effects even on healthy people and serious health effect on people with lung/heart diseases

VERY-POOR : May cause respiratory illness to the people on prolonged exposure. Effect may be more pronounced in people with lung and heart diseases

POOR : May cause breathing discomfort to people on prolonged exposure and discomfort to people with heart disease

MODERATELY POLLUTED : May cause breathing discomfort to the people with lung disease such as asthma and discomfort to people with heart disease Children and older

SATISFACTORY : May cause minor breathing discomfort to sensitive people

GOOD : Minimal impact

00/01/1900	0	0	0	0	WRONG ENTRY

SEVERE : May cause respiratory effects even on healthy people and serious health effect on people with lung/heart diseases

VERY-POOR : May cause respiratory illness to the people on prolonged exposure. Effect may be more pronounced in people with lung and heart diseases

POOR : May cause breathing discomfort to people on prolonged exposure and discomfort to people with heart disease

MODERATELY POLLUTED : May cause breathing discomfort to the people with lung disease such as asthma and discomfort to people with heart disease Children and older

SATISFACTORY : May cause minor breathing discomfort to sensitive people

GOOD : Minimal impact

SEVERE : May cause respiratory effects even on healthy people and serious health effect on people with lung/heart diseases
VERY-POOR : May cause respiratory illness to the people on prolonged exposure. Effect may be more pronounced in people with lung and heart diseases
POOR : May cause breathing discomfort to people on prolonged exposure and discomfort to people with heart disease
MODERATELY POLLUTED : May cause breathing discomfort to the people with lung disease such as asthma and discomfort to people with heart disease Children and older
SATISFACTORY : May cause minor breathing discomfort to sensitive people
GOOD : Minimal impact

SEVERE : May cause respiratory effects even on healthy people and serious health effect on people with lung/heart diseases
VERY-POOR : May cause respiratory illness to the people on prolonged exposure. Effect may be more pronounced in people with lung and heart diseases
POOR : May cause breathing discomfort to people on prolonged exposure and discomfort to people with heart disease
MODERATELY POLLUTED : May cause breathing discomfort to the people with lung disease such as asthma and discomfort to people with heart disease Children and older
SATISFACTORY : May cause minor breathing discomfort to sensitive people
GOOD : Minimal impact
